## Work Experience

### Project Lead - Web Designer/Developer

Reach Canada Auction, Ottawa, Ontario, Canada

Jan 2018 - April 2018

Reach Canada is a legal referral and educational organization for people with disabilities located in Ottawa.

- Lead and manage the work-flow of a team of 5 people to Design Logo, Infographic Poster and Website for Reach Canada's 38<sup>th</sup> Annual Auction Gala.
- Assigned tasks and a rubric (to follow) to each team member, after discussing their potential skill set and client requirement.
- Development of website keeping in mind the dynamic, responsive and elastic behaviour of the website.
- Test the website by launching it through Edumedia Server using FTP(FileZilla).
- Technical Skills: WordPress, HTML5, CSS3, JavaScript, PHP, jQuery, SQL and FileZilla.

### Web Developer

Trusted Clothes, Kitchener-Waterloo, Ontario, Canada

May 2017 - Aug 2017

Trusted Clothes is dedicated to promoting Ethical, Sustainable and Healthy fashion.

- Developed whole new website for Trusted Clothes.
- Worked closely with company executives to achieve better user experience (UX & UI).
- Worked with the UX designer to implement the designed wireframes and prototypes to a functional and dynamic website.
- Worked on the WordPress blog, to add all the necessary style(CSS3) elements, by referring to the Trusted Clothes style guide.

- Set a git repository for backup of all the working files and also added a plugin (Updraft Plus) for backup in WordPress.
- Tested, made appropriate changes and launched the website.
- Technical Skills: HTML5, CSS3, JavaScript, jQuery, bootstrap, Google Analytics, Adobe Photoshop and Adobe Illustrator.

## Head Web Designer

RVM Software Solutions, Vadodara, Gujarat, India

Sept 2015 - April 2016

RVM Software Solutions is a company that provides IT solutions according to their client needs and problems.

- Developed a website for warehouse stock management with GPS tracking and Barcode generator utilizing skills in HTML, CSS, JavaScript, Asp.NET, bootstrap and basic java.
- Worked as the project head by directing the work to the project team members.
- Conducted research into the feasibility, design, operation and performance of warehouse stock management website.
- Installed the proper software for the installation of the webserver on the local host.
- Designed and built a website with interactive GUI and SQL query base.
- Developed a barcode generation code with the help of 128 Barcode Algorithm.

## IT Coordinator

Aug 2013 - May 2014

Sardar Vallabhbhai Institute of Technology, Vasad, Gujarat
